DETAILED ACTION

Continued Examination Under 37 CFR 1.114

1. A request for continued examination under 37 CFR 1.114, including the fee set forth in 37 CFR 1.17(e), was filed in this application after final rejection. Since this application is eligible for continued examination under 37 CFR 1.114, and the fee set forth in 37 CFR 1.17(e) has been timely paid, the finality of the previous Office action has been withdrawn pursuant to 37 CFR 1.114. Applicant's submission filed on July 05, 2006 has been entered.

Claims 3 and 7 were cancelled and claims 1, 2, 4-6 and 8-20 are currently pending in this application.

Allowable Subject Matter

2. Claims 1, 2, 4-6 and 8-20 are allowed.

The following is an examiner's statement of reasons for allowance: none of the prior art of record fairly suggests or shows all of the limitations as claimed. Specifically,

Re claims 1 and 9, none of the prior art of record discloses, in combination with other limitations as claimed, a liquid crystal display as well as a method of fabricating the same comprising a hydrophilic buffer layer having a thickness of 10 Angstrom to 50 Angstrom formed by irradiating the organic passivation layer with ultraviolet rays having a wavelength in a range between about 100 nm and about 200 nm.

The most relevant reference, USPN 6,038,008 to Kim et al., fails to disclose or suggest a thickness of 10 Angstrom to 50 Angstrom of the hydrophilic buffer layer. As shown in Fig. 7H, Kim et al. discloses an organic passivation layer 126 irradiated with

UV rays to form a hydrophilic buffer layer; however, Kim et al. is silent on the thickness of the buffer layer.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
